CLARESHOLM LOCAL NEWS

Mr. and Mrs. Leo Schoof spent New Year's day at Stavelay.

Mr. and Mrs. R. A. Shearer spent New Year's at Stanton.

Mr. and Mrs. J. F. Hagerman spent New Year's at Stanton.

Oscar Hage has taken over the work shop in the Service Garage at Macleod.

The unprecedented mild winter weather has continued during the past week.

Oscar Hage and family are leaving for Macleod the first of next week.

The Clareholm Elks have decided to hold their first annual ball on Friday night February 12.

O. C. Arnstad left on Thursday for a three months' visit in the western states, going by way of Vancouver.

Herbert Coutts is home from the north, where he has been teaching school for the past several months.

C. Jarvis Miller came over from Carmang and visited with his parents Mr. and Mrs. W. C. Miller on Christmas.

The big Zane Grey picture, "The Thundering Herd," will positive be at the Rex theater on Friday and Saturday nights this week.

Anyone knowing the whereabouts of Frederick Shelley, age 20 years, English, will confer a favor by informing Sergt. Hildson. Relatives are enquiring.

Miss C. MacDonald of Calgary has taken a position as stenographer at the local branch of The Canadian Bank of Commerce arriving here on Monday last.

The mild weather has brought out the grasshoppers. Geo. McKinney caught a very lively hopper on Thursday that ran counter to enjoy Alberta sunshine.

Morley Tillotson, who is attending Queen's University at Kingston, Ont., spent the holidays with his parents here, leaving Monday for his return to Kingston.

Mr. Gavin Shearer, Manager of The Canadian Bank of Commerce left on Saturday last for Eastern Canada and will be away for several weeks. During his absence the branch will be in charge of Mr. McPhee.

Mrs. Thos. Field and son Erastus spent Christmas with her daughter Mrs. W. C. Miller. Mr. Field returned to their home in Penhold, but Mrs. Field is continuing her visit and renewing old acquaintances at Clareholm, she being a resident here at the time the town was first started.

Notice—A meeting will be held at R. E. Moffatt's office on Tuesday, January 12, at 2 o'clock in the afternoon, for the purpose of considering the advisability of putting on a community horse sale in Clareholm this spring. All those having horses for sale it will be to their interest to attend this meeting.

Uncle Tom's Cabin, the stage play from Harriet Beecher Stowe's immortal story, is coming to the L. O. O. F. Hall, Clareholm, on Tuesday evening, January 12, at popular prices. All who have seen it will want to see it again, and all who have not seen it should by all means see it this time.

Clareholm Lodge No. 124, B. O. P. E., conferred the degree of Elldom on a large class of candidates on Thursday night. The degree team of Stavelay Lodge ably assisted in the work. Visitors from other towns were also in attendance. At the close of the evening's work a fine lunch was served, followed by after dinner speeches and other entertaining features.

United Church of Clareholm

The inaugural services of the United Church of Clareholm drew congregations that taxed the capacity of St. Andrew's last Sunday, and the evident interest in the services, together with the spirit of unity and good will shown throughout those services, was very gratifying. In connection with the morning service the Rev. G. W. Langille, B. A. of Gramum, who has ministered to the former St. Andrew's congregation for the past year, was the preacher, and delivered a timely discourse from John 12:24. Following the sermon the membership rolls of the two uniting congregations were presented to the minister, Rev. Geo. Webber, the roll for St. Andrew's being presented by Thos. Darch, and that of Bethel by Jas. McKinney, after which a simple and impressive service was conducted, in which minister and people joined to dedicate the new congregation as a church of Christ in this community.

The evening service was conducted by the Rev. Geo. Webber who preached from the appropriate text, "This one thing I do . . . I press on toward the goal unto the prize of my high calling of God in Christ Jesus."

On Wednesday evening of this week the first congregational meeting was held in Harrison Hall, when a large and representative number gathered for the further organization of the new church. The meeting was presided over by the Rev. Geo. Webber, and E. H. Mack acted as secretary. The recommendations of the joint boards of St. Andrew's and Bethel churches were received, and the following resolutions looking towards the union of these two congregations were heartily endorsed by the meeting. It was decided that the Session of the United Church should consist of six members and that the term of office should be six years; with a principle of rotation by which one member would retire each year. To give effect to this in the first election the members of the first Session were elected for the terms indicated as follows: Thos. Darch, six years; Jas. McKinney, five years; D. McEwen, four years; M. Hillerud, three years; D. Morrison, two years; and J. O. White, one year.

Eight members were elected to the board of stewards, the first four of whom will hold office for two years, and the second four hold office for one year, the regular term of office hereafter to be two years. The first board will consist of, E. H. Mack, C. A. Coutts, W. D. Munro, G. B. Walter, G. Simpson, J. Dahl, W. Knight, and J. W. Morrow.

For the re-organization of the Sunday schools as a united Sunday school the board of management is to consist of the officers and teachers of the former St. Andrew's and Bethel Sunday schools, together with the newly appointed members of the Session of the United Church. These will meet during the coming week for the election of the officers and teachers of the united Sunday school.

At the close of the business meeting the ladies served refreshments in their well-known attractive and efficient way, and the first business meeting of the newly organized church was brought to a close. The finest spirit of good will and unity prevailed throughout.

Card of Thanks

family wish to thank all friends for kindness and sympathy extended during their recent bereavement, also for the many beautiful floral tributes.

Peace On Earth; Goodwill Toward Men

This is the season when the old Christmas song of the angels, "Peace on earth, good will toward men," will be sung throughout the world, when from porch and pulpit the glories of peace and goodwill among all men and nations will be proclaimed, when education will be valued, and all people by precept and the force of example to do what lies in their power to promote these essential qualities at home and abroad.

Probably never before in the world's history did there exist a more earnest and widespread desire for international peace and goodwill, and the greatest and most outstanding evidence of this is to be found in the signing of the League of Nations, and in the growing influence of the League of Nations.

There is also evidence in many countries, and happily so in Canada, a larger and growing spirit of tolerance. More and more there is developing a willingness among people to let bygones be bygones, to accord to others the same liberty of religious, political, and racial customs which one demands for oneself. Canadians generally are not now contenting themselves with petty issues as to whether their neighbors of foreign birth continue to make use of their mother tongue, or worship God in some manner different from their own. There is, in Canada, a growing acceptance of a man for his own character and qualities quite apart from his racial origin, the language he speaks, or the altar at which he worships. The general recognition and acceptance of such views is essential to the development of peace and goodwill.

Unfortunately, there is one section of the world where, as yet, this spirit does not hold sway; where, on the contrary, all the old racial, racial and religious animosities are flaring, and still threaten the peace of the world. The reference is to that group of small independent nations in Southeastern Europe known as the Balkan states. For the past three-quarters of a century or more, these little states have been the theatre of a series of wars, and hardly a year passes without the threat of a new conflagration. While the great nations of the world are anxiously striving for peace, these little states maintain hot beds of explosion and intrigue, continually ever anxious to try at each other. Their populations have become so mixed that in each country there are racial and religious minorities always stirring to trouble and plotting course for the enforcement of oppressive policies and acts of violence against them.

It was not a pretty nor encouraging picture of the situation in the Balkans which was drawn by Hugh Edwards, M.P. in the British House of Commons, in an address delivered before the Women's Co-educational Club of Montreal, on the occasion of the meeting of the Inter-Parliamentary Union at Ottawa. Contrasting the spirit and policy of the British Empire in its treatment of minorities, Mr. Edwards said:

"The force and vehemence of discussion which took place in the Inter-Parliamentary Union meeting at Ottawa has made it very evident that these little Balkan states have not yet laid the agonizing memories of the late war. The Balkan Peninsula is still a hotbed of intrigue, of racial antagonism, and false and senseless magic change is now wrought in the temper of these little states it will not be long before the post-bellum era again and elsewhere brings more war and blood. No act related to the signing of that treaty with Germany at Locarno. It makes war impossible in the west of Europe. I am uneasy for the East, when I find these little states showing such bitterness and such fierce racial antagonism."

Similar feelings regarding Canada's progress in the past. On more than one occasion great national questions were decided, not on their merits, but as the result of the most unworthy and sinister racial and religious propaganda. A better day has dawned in this Dominion, and the people will no longer countenance appeals of this nature. But Canada's integrity requires the removal of all such danger spots throughout the world. Our people may not be able directly to do anything very effective in the Balkans, but Canadians can by staunch support of the League of Nations, and by a friendly and brotherly attitude towards each of these Balkan peoples as have come to live in Canada, help materially to develop a right spirit and thus assist to overcome those old enmities.

These newsmen in Canada will pass on the word to their friends and relatives in their former Balkan homes that there is a better way, while the League of Nations offers the only hope through which official and organized action can be taken among the Balkan peoples themselves.

An Interesting Invention

Scotch Linnen Weaver Still Trembling

Driven By Mice

In a certain town in Scotland is an interesting historical invention of a linen weaver, by the name of David Hutton. It is a machine used to be driven by mice. The treadmill was connected by a rough machine designed for the purpose of spinning

spinning thread. Records relate how in this way the ingenious Scotchman made a clever profit of six pence per year. Indeed, he suggested building 10,000 similar mouse mills, which would yield a profit of £2,500 per annum, but the project fell through.

Heavy Fire Losses

Says the Annual Fire Loss in Canada and U. S. is \$558,000,000

The Board of the International Association of Fire Chiefs and Engineers, headed by Chief James Armstrong, of Kingston, president, went into executive session at Los Angeles to formulate an educational programme to reduce the "enormous fire losses in the United States and Canada."

Chief Armstrong declared that "education is the only solution of the problem, which involves a yearly fire loss of \$558,000,000 and which still is growing."

Early in 1908 A.D. soldiers were brought to Japan from China.

Minard's Liniment for chilblains

New Industry At Coast

Raising Pedigree Rabbits to Fast Becoming Paying Industry

A little-noticed industry, but one that bids fair to attain large proportions in Vancouver Island, is the raising of pedigree rabbits. It is almost in the middle of the city and around suburban homes—pedigree rabbit rearing. On the Spanish Peninsula alone there are now more than twenty rabbitries, some already operating on a large scale, and others' starting to stable proportions.

While the production of thoroughbred rabbits for stock purposes is at present the most paying, and of the modern rabbitry business, the possibilities of fur-raising and meat production loom large on the market side of the industry now in its infant stages compared to the proportions it has reached in other countries.

It may come as a surprise to the layman to learn that a thoroughbred rabbit brings \$100 to \$200 in the market for breeding purposes, and that it is common that for certain breeds to attain a weight of from fifteen to eighteen pounds.

The growing demand for furs for women's dresses and other uses has led to a great increase in the use of dried furs. The rabbit supplies a very large percentage of the articles required, and furs, passing under trade names.

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results by Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness of the eyes, coughing or running nose, prompt measures for relief must be resorted to. Mothers should always have on hand some simple and effective remedy for immediate use.

Baby's Own Tablets act quickly against no matter what kind of cold, such as croup, whooping cough, hoarse, sore, etc. Baby's Own Tablets, says—"I have used Baby's Own Tablets for my children and found them a very effective remedy. When my little boy had a cold I gave him a few tablets at night and he was well next day. I give them to the children for their colds and they always do good. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I recommend them to all parents who have small children and believe they should always be kept on hand."

Baby's Own Tablets are sold by all medicine dealers, or will be mailed at 25¢ a box by mail from the manufacturer, Geo. H. Thompson, Ltd., Montreal.

Discovers New Metal

One-Third As Heavy As Bronze, Brass or Iron, Much Stronger

The discovery of a new metal one-third as heavy as bronze, brass or cast iron, and three times as strong as any of them, has been reported from the University of Kentucky. The discoverer, Mr. Harold McLean, is an Ontario boy, only 16 years old, and other relatives still live in that town. Mr. McLean has been doing research work on his venture for nine years, and, beyond saying that the materials for the new metal are plentiful, has not divulged his formula to anyone, according to The Ontario Patriot.

The last Atlantic attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will help you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often has a permanent effect. Why not get this long-known remedy today and commence its use? Inhaled as smoke or vapor it is equally effective.

A Clever Retort

"In introducing you to my friend, the lecturer, I ought to say that he is not so stupid as he looks," remarked the would-be humorous chairman. "That," said the lecturer, without a smile, "is just the difference between the chairman and myself."—Public Inquirer.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines unattractive to them. They make the system that have become infested by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.

Big Real Estate Sale

One of the largest real estate deals in London's history was concluded when Lord Howard de Walsingham sold 40 acres of London property for a reported sum of \$15,000,000. The average included some of the richest and some of the poorest streets in the west end of London.

The history of Ireland for the past 1,000 years records no more than two cases of theft.

Stop that cold with Minard's Liniment

Gerald—"May I offer you my umbrella, madam?"

Geraldine—"Not if you go with it."

Disarmament Is Only Solution

Locarno Pact Merely Marks Beginning Of European Peace

What is to come after Locarno? This is the question the British press and public are asking. Ramsey MacDonald and Lloyd George, both former premiers, Viscount Cecil and Austen Chamberlain, the foreign secretaries, have repeatedly stated that the Locarno pact, which was signed Dec. 1, merely marks the beginning of European peace. It settles the differences between France and Germany but the other European states and Great Britain now need guarantees against war.

Disarmament is conceded to be the only solution, but how this can be effected with safety and justice to all is a burning question.

Viscount Cecil indicated recently in the House of Lords that Britain was seriously considering a new disarmament conference and will shortly bring out disarmament plans of its own, but the difficulty of doing this is pointed out in the press, because of Britain's insular position and the resultant dangers she stands from any air and submarine forces. France, Germany and France are at peace, their air and undersea forces still menace the British Isles.

New Preference Rules Of New Zealand

Regulation Will Affect Canadian Assembly Branches of American Firms

New Zealand is doubling the percentage of British labor and materials required in imports under British preference rates. The present percentage of "British origin" is twenty-five. The new regulations which come into force on April 1 next, require fifty per cent.

The effect of this will be that Canadian goods exported to New Zealand will have to be fifty per cent. Canadian labor and materials. It is to get the advantage of the British preference. The increase will particularly affect Canadian branches of American firms which are only assembling, or partly manufacturing, in Canada.

Heavy Grain Marketing

All records in the history of transportation of western crops were smashed on Monday, November 16th, when 2,126 cars were inspected at Winnipeg and other western points, while 2,126 cars were inspected at Winnipeg and other western points, while 2,126 cars were inspected at Winnipeg and other western points.

The Retreat From Mons

Fine Tribute Paid to British By A Former Enemy

War thoughts for to my mind a story for thoughts it would be well that we should all know. The tale is told in Sir Almeric Dittory's "Memoirs," and speaks well, not alone for the British race, but for our late enemy as well. Indeed, we may ask whether a finer tribute has ever been paid to any country by a former enemy.

I quote the story in Sir Almeric's own words: "When Colonel Stewart Lord Von Kink, at Berlin, in the spring of 1921, held out his hand, Von Kink stopped backwards, and raised his right hand as if in protest. Then he spoke: 'Heer Oberst, there is one thing I wish to say to you before I take your hand. It is something I have always intended to say to the first British officer I met after the war in the whole history of the world there is, in my opinion, no military feat which has ever been executed of equalled as that accomplished by the first British army in the last war.'"

Warfare in Overtones.

German Press Praises Chamberlain

The action of Sir Austen Chamberlain, the British foreign secretary, in branding as false the war-time story of a German "corpo factory" is characterized by the German press as a creditable and statesmanlike act.

A German library which is to contain everything published in the German language since 1913 has been established in Leipzig.

Timber exported from British Columbia during the nine months ending September 30, 1925 was 30,638,000 feet, compared with 50,500,000 feet for 1924; 46,813,000 feet in 1923, and 47,820,000 feet in 1922.

A project is under way at Toronto for the construction of the largest hotel in Canada, which also means the largest hotel in the British Empire. It is understood that the new structure will be even larger than the Roosevelt in New York.

The apple crop in the Okanagan Valley, British Columbia, this year is estimated at 2,200,000 boxes. At a fair estimate of a dollar and a half a box, the return to growers in this district will be approximately four million dollars.

The Eastern International Dog Derby will be run at Quebec on February 18, 19 and 20. The course provides for a distance of 45 miles a day for three days, irrespective of snow or slush. The winner will receive \$1,000 and a gold cup. Other competitors will be awarded prizes aggregating \$2,200.

Immigration to Canada for the six months from April 1 to September 30, 1925 total 37,000. Of this number 25,012 were from Great Britain and Ireland, 11,599 from the United States and 20,815 from other countries. In the same period 18,282 Canadians returned from the United States.

With Canadian engine flying and all her gala bunting aloft, the Canadian Pacific liner Empress of Scotland left the harbor of New York sharp at noon on December 30 on the first part of her journey in the course of which she will completely circumnavigate the globe, covering approximately 30,000 miles, visiting between different countries and making twenty-four ports of call.

Canadian Pacific Railway gross earnings for the month of October were \$19,560,188.43, an increase of \$216,847.85 over the corresponding period of 1924. Net profits were \$7,444,027.98 or an increase of \$121,840.85, or \$7,025,177.23 for October 1924. Net profits for the ten months ending October 31 were \$25,079,949.01, an increase of \$1,611,880.32 over the sum of \$23,468,068.69 for the same period of 1924.

According to advice from a reliable source, conditions in the West have shown consistent improvement this year. The crop has been gathered, threshing is finished, and the grain has been stored in elevators. With the extraordinarily rapid increase of wheat, money is steadily coming in to farmers, giving them an opportunity to clear off debts and leaving them enough to extend their purchases.

The first Christmas holiday special over the Canadian Pacific Railway bearing three hundred happy Winterers bound for the Old Country arrived at St. John, N.B. in time to connect with the Canadian Pacific liner Montclare which will land them in Great Britain in time for the Christmas holidays. The special, travelling as the second section of the Imperial Limited, was composed of eight sleepers, one from Edmonton, Calgary, Moose Jaw, Kerrobert, Sask., Shaunavon, Sask., and two from Winnipeg.

Exceeding anything before shown in the Dominion of Canada and in the world, figures of marketing of all grains and of car loadings in the month of November furnish a double record for Canadian Pacific Railway western lines, for Canada and for the world. Marketing of all grain and car loadings were 39,252 cars. For figures even distantly approaching the above, the statistician must go back to November 1923, when 37,608,000 bushels of all grains were marketed and 36,579 cars were loaded.

Here and There

British Columbia's whaling industry produces about 400 tons of whale bone meal and 900 tons of meat and blood for fertilizing purposes annually. This is exported mostly to the United States.

According to G. F. Tomsett, superintendent of the Saskatchewan Branch of the Employment Service of Canada, about 45,000 harvest hands were brought into Saskatchewan and distributed over the province to harvest and thresh the 1925 crop.

J. Stapleton, of Regina, ordered two springer spaniel puppies from a dog agent in Liverpool on October 9th. Thirty days later they were delivered to him after a voyage and journey totalling 4,500 miles, the shipment going at the rate of 150 miles a day. This constitutes a record for speed.

Constituting a record for Canada and probably for the world, 3,447,000 bushels of all grains were marketed on the lines of the Canadian Pacific Railway in Western Canada on November 19. The nearest approach to this figure was the 3,066,000 bushels marketed on October 18, 1915, in the year of one of the greatest crops the Dominion has ever harvested.

Reports received at Canadian Pacific Railway headquarters this week show that four more accidents occurred in cases where motorists drove their cars into trains aloft in the process of crossing levels. This brings the total of accidents of this kind up to thirty for the year. In all four cases the automobiles were damaged while the motorists escaped with minor injuries.

Eighty-seven black boxes, valued at about \$100,000, shipped in 44 crates, arrived at Montreal last week from Buffalo. Twenty-five of the animals were prize-winners at the Black Fox Exhibition which concluded last week, and were on consignment to the Borestone Mountain Fox Ranch at Onawa, Maine.

The Far East has heard about Canadian apples. The Canadian Pacific liner Empress of Asia carried 19,000 boxes of apples when clearing out of Vancouver last week. General trade conditions between Canada and the Far East are quite healthy as there was also on board the vessel 800 tons of Canadian flour, 100 automobiles and 100 tons of Alberta beef.

With each succeeding year Great Britain is relying more upon her colonies for agricultural supplies. In the seven months of 1925 ending July, Canada supplied Great Britain with 4,877,266 pounds of butter, compared with 154,224 pounds for the same period of 1924, and 40,454 pounds of cheese, compared to 20,152,004 pounds for the same period of last year.

Two bears, six coyotes and fifteen chipmunks were shipped to England on the Canadian Pacific liner Montclare last week from the Toronto Zoo to the London Zoo. In exchange, the Curator of these gardens has been asked to supply Toronto with Ceropsis, Bean, Magellan and bar-headed geese; shell ducks; a female Comb Duck; two Rheas (ostriches); four Jays; two young leopards; and a Barbary Sheep. A stiff order.

Six champion juvenile swine breeders, winners in Manitoba, Saskatchewan and Alberta, have been awarded medals and trophies by the Canadian Pacific Railway and are now the guests of the latter at the Royal Winter Fair at Toronto. The young people, who competed in clubs on Canadian Pacific lines, are: Fred are: Vern Johnson and Oscar Judgerson, Alberta; Lorne Joynt and Fred Argue, Rouleau, Saskatchewan; Mamie Gorman and Grace Even, Kenton, Manitoba.

Have You Any Judson Engines, Grinders, Washing Machines

Get your repairs from us. Can ship C.O.D. or will quote prices. Give horse power and serial number of engine, or name and style of machine, requiring repair. Or ship engine to us and we will repair it for you. Catalogue on request.

C. P. R. Makes Grain History

In handling the Canadian banner grain harvest of 1925, the Canadian Pacific Railway has established record after record in the marketing and loading of grain so that the figures for the current year constitute a record not only for Canada but for the world.

A. Hutton, general superintendent of transportation of the system, has issued a report covering the movement of grain on Canadian Pacific western lines from August 1 up to midnight Friday, December 18. It is shown that on one day, Friday, November 20, 3,550,000 bushels of grain were marketed and on Friday, November 13, 1,994 cars containing approximately 2,921,000 bushels of grain were loaded. In the twenty-four hours of that day this represents 8 cars loaded every hour or a little more than one and one-half cars per minute.

Usually marketings and loadings take a sudden drop with the approach of the close of navigation. In this year there was little diminution as the report shows loadings on December 8 at 1,425 cars.

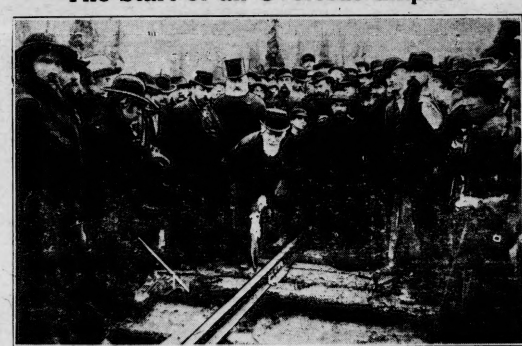

Despite adverse weather conditions in the month

of October which retarded threshing, marketings up to December 18 on Canadian Pacific western lines totalled 120,219,000 bushels of wheat and 36,345,594 bushels of coarse grains. During the same period 178,159 cars, carrying approximately 172,000,000 bushels were loaded. Of this loading, 9100 cars went to the head of the lake, Fort William and Port Arthur, passing through the Winnipeg yards, including North Transcona, the largest individual yards in the world having a capacity of 10,000 cars.

From there the movement was over a 420 mile stretch of double track line to the lake front and on this run some records were also made, the highest number of loads moved eastward in any one day being 1,640. The daily average was in numbers of four figures.

The arrangements made by the Canadian Pacific Railway for the conveyance of the crop worked smoothly and there was not a single case of car shortage justifying the provisions made in the way of up-to-date facilities and heavy freight power.

The Start of an Overseas Empire.

CONSIDERING Canada's progress during the past forty years there is no room for pessimism. And it Canadians face their problems squarely and attack them with courage it would be difficult to forecast the limits to Canada's future prosperity," said E. W. Beatty, K.C., President of the Canadian Pacific Railway, on November 7th, last, on the occasion of the fortieth anniversary of the completion of the Canadian Pacific Railway. Mr. Beatty made known to the world his belief that the present problems were no more difficult than those of forty years ago and Canadians not less able to cope with them.

Forty years ago Canada had a population of 5,000,000 as compared to 2,500,000 at present. It is a remarkable fact that the Canadian Pacific Railway Company spent \$70,000,000 of their own money in bringing settlers to the Dominion. And of these, the building of Canada was a gallant fight against great

forces so did the construction of the Canadian Pacific Railway constitute a heroic battle as not overwhelming odds. The men who led in its creation faced rain often.

Today, as a result of the courage, the far-sightedness and the optimism of the builders of the Canadian Pacific, the reliability of the Company has come to be an accepted fact of the world over and has been recognized abroad as the tangible evidence of Canada's position as a nation.

Just forty years ago, November 7, 1885, Mr. Beatty recalled, the rails met at Craigellachie in the Pacific Pass, B. C., when a posse of men watched Donald A. Smith, later Lord Strathcona, drive the last spike home. Others in the group picture above include Sir William Van Horne, Sir Sandford Fleming, Major Rogers, Rider of Rogers Pass, George H. Macdonald and James Ross.

Description on the Tablet.

Under a glorious sky late in November an expectant group of distinguished Canadians were gathered for the unveiling of an ornamental cairn at Gonzales Heights, Victoria, B.C., commemorating the early British and Spanish explorers who explored the Pacific coast in the eighteenth century. The ceremony also marked the sixty-seventh anniversary of the existence of the province of British Columbia.

One hundred and thirty years have

flowed by since Captain Charles William Barkley, in command of the picturesque British trading vessel the Imperial Eagle, sailed up the straits of Juan de Fuca searching for the mythical Northwest passage which would provide an alternative route from Atlantic to Pacific and also the greatly desired short cut to the Indies.

The ceremony of the unveiling of the cairn was impressive, as befitting a public demonstration of gratitude

to pioneer geographers and explorers. Sleeping forward proudly, Captain Robert F. Barkley, great-grandson of the intrepid explorer, drew aside the draped flags of Britain and Canada, emblem of the glamour of picturesque days of another era, revealing the cairn with its modest bronze tablet.

Among the other prominent participants in the ceremony were John W. Dolly, of Seattle, Vice-Consul for Spain; Hon. Walter C. Nicholl, Lieutenant Governor of British Columbia; His Honor, Judge Howay, of New Westminster, President of the British Columbia Historical Association; Rev. Amos, representing Oak Bay Municipality; also members of the family of Sir James Douglas, first governor of British Columbia, and of Captain William Henry McNeill, who made a report to the Hudson's Bay Company in 1811 upon the suitability of the present site of the City of Victoria for the erection of a fort.

In his opening address, Hon. Walter Nicholl referred to the great debt owed the pioneers who had willingly dared all in their voyage of discovery. The speaker also reviewed the great potential resources of the new land they had taken possession of on the Western rim of the world.

In the course of the proceedings credit was repeatedly given the Victoria Branch of the British Columbia Historical Association to whom, through the efforts of C. C. Pemberton and others, the unveiling of such historical detail was due.
